

# Non-Domestic Renewable Heat Incentive

## New tariffs and tariff changes

[www.ofgem.gov.uk](http://www.ofgem.gov.uk)

April 2014

Factsheet

Subject to parliamentary approval, we anticipate a number of changes will be made to the Non-Domestic Renewable Heat Incentive (RHI) in the next few months. This factsheet highlights what we believe to be the key changes to tariffs.

The following technologies will receive an increase to their tariffs

| Technology                      | Capacity                        | Current tariff | New tariff  | Available from  |
|---------------------------------|---------------------------------|----------------|---|---|
| <b>Ground source heat pumps</b> | Small GSHP less than 100kWth    | 4.8p/kWh       | Tier 1: 8.7p/kWh<br>Tier 2: 2.6p/kWh<br>(All capacities of GSHPs) | Available when the amendment regulations come into effect and for all GSHPs with a date of accreditation on or after 21 January 2013                          |
|                                 | Large GSHP of 100kWth and above | 3.5p/kWh       |   |   |
| <b>Solar thermal collectors</b> | Less than 200kWth               | 9.2p/kWh       | 10p/kWh   | Available from date of commencement of amendment regulations and for all solar thermal collectors with a date of accreditation on or after 21 January 2013    |
| <b>Large biomass</b>            | 1MWth and above                 | 1p/kWh         | 2p/kWh  | Available from date of commencement of amendment regulations and for all large biomass installations with a date of accreditation on or after 21 January 2013 |

## Non-Domestic Renewable Heat Incentive

### New tariffs and tariff changes

The following new tariffs will be introduced to the scheme

| Technology                           | Capacity  | New tariff | Available from   |
|--------------------------------------|---|------------|--|
| <b>Air source heat pumps</b>         | All capacities                                  | 2.5p/kWh   | Available for eligible installations: <ul style="list-style-type: none"><li>▪ first commissioned on or after 4 December 2013; <b>and</b></li><li>▪ application made on or after the date of commencement of amendment regulations.</li></ul>   |
| <b>New deep geothermal</b>           | All capacities                                  | 5p/kWh     | Available for eligible installations: <ul style="list-style-type: none"><li>▪ first commissioned on or after 4 December 2013; <b>and</b></li><li>▪ application made on or after the date of commencement of amendment regulations.</li></ul>   |
| <b>New solid biomass CHP systems</b> | All capacities                                  | 4.1p/kWh   | Available for eligible installations: <ul style="list-style-type: none"><li>▪ first commissioned as part of a CHP system on or after 4 December 2013; and</li><li>▪ application made on or after the date of commencement of amendment regulations; <b>and</b></li><li>▪ is certified under CHPQA.</li></ul> |
| <b>Biogas</b>                        | Medium biogas (200kWth and above up to 600kWth) | 5.9p/kWh   | Available for eligible installations: <ul style="list-style-type: none"><li>▪ first commissioned on or after 4 December 2013; <b>and</b></li><li>▪ application made on or after the date of commencement of amendment regulations.</li></ul>   |
|                                      | Large biogas (600kWth and above)                | 2.2p/kWh   |  |

## Contact us

Contact the Non-Domestic RHI team if you would like to apply for the scheme, if you require support with the application process, or if you have queries regarding the Spring Changes, progress of your application, the eligibility requirements or our published guidance.
